### *Film Synopsis:*

*My Land documents the threat that husband and wife Ali and Trees in the town of Sakhnin (Galilee region, north Palestine) face from the Zionist occupation authority to destroy the home the family built on their own land. About 1.3 million Palestinians who were issued 'Israeli citizenship' are still struggling 57 years after the imposition of the Zionist state for their rights to their own property and land. The film shows one of those many struggles.*
